

Build enduring leadership

Leadership is about vision, but equally, it is about creating a culture with ethics, where people have the opportunity to be heard, the truth is heard, and the brutal facts are confronted. A culture that encourages innovation to accelerate momentum. (Jim Collins, 'From Good To Great').

Through the facilitation of executive development programs, DifferenThinking helps organisations unlock their internal culture and leadership capabilities and charge them for sustained success through innovation, culture and people growth strategies.

Testimonials

“

"The DifferenThinking program is a great opportunity to learn straight-forward and pragmatic tools that can be used immediately in the day-to-day context of managing an organisation"

-Murray, CEO, textile sector

"Zivit allowed our business to go to the next level. I learnt some key tools to run a performing team and work more efficiently as a leader. Thanks again!"

-Aude, Head of Finance and Business Operations, IT sector

”
